Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>

- **State Executive Order N-07-21 and N-08-21**

On June 15th, the Governor terminated the executive orders that put into place the Stay Home Order and the Blueprint for a safer economy. He also phased out most executive actions put in place since March 2020 as part of the pandemic response, leaving a subset of provisions that facilitate the ongoing recovery. For more information visit: [Executive Order N-07-21](#) and [Executive Order N-08-21](#)

- **Executive Order N-09-21**

On 06/17/21, California revised Covid-19 Prevention Emergency Temporary Standards based on a vote by the Occupational Safety and Health Standards Board, to take immediate effect on 06/17/21. The updates include changes to face coverings and physical distancing requirements. More information on the revised Covid-19 Prevention Emergency Temporary Standards can be found in CAL/OSHA's Frequently Asked Questions: [Frequently Asked Questions](#)

- **CDPH Statewide Travel Advisory**

As of 06/15/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information: <https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/COVID-19/CA-is-Open-Travel-Guidelines.pdf>

On 04/21/21, the State Operations Center (SOC) changed the reporting tempo for the COVID-19 Sit Stat and Trifold Reports from daily to once a week. Updated reports can be expected every Tuesday of each week until further notice.

Late June 2021 Heat Event

Phase II Activation of the Heat Contingency Plan

- Phase II actions of the California Heat Contingency Plan are taken as a result of the National Weather Service's issuance of Excessive Heat Warnings with poor overnight recovery for an Operational Area over a period typically three or more days.
- Phase II of the Heat Contingency Plan will de-activate at the end of June 30th, due to all watches and warnings expiring.
- Please see the attached Situation Cell Incident, Late June 2021 Heat Event Report

Actions Taken by Cal OES

- The Situation Cell produced Weather Outlook briefing for situational awareness on June 25, 2021, and started incident reporting, June 26, 2021. The incident report includes state and local actions, as well as cooling center information.
- The Situation Cell will continue to monitor the heat event for increase in duration and/or impacts and reevaluate the Heat Plan as necessary.
- The Situation Cell is activated at an enhanced watch and will continue to monitor the heat event for increase in duration and/or impacts and reevaluate the Heat Plan as necessary.

SITUATION SUMMARY

Cal OES INLAND REGION

Teviston CSD Water System Failure, Tulare County

On Monday, 06/14/21, Tulare County OES reported a water system failure in the community of Teviston, which has 110 service connections and a population of approximately 348.

- Tulare County OES coordinated the delivery of bottled water to each residence, which should provide enough water through the weekend and through the Excessive Heat Warning weather event. Participating agencies included several Tulare County departments, Self Help Enterprises, Community Services Employment Training (CSET), and Cal OES Inland Region.
- Progress has been made on temporary repair efforts at one of the wells and water pressure is back up.
- Delivery of bottled water to the community is now in place until the well is fully repaired.
